WHY CHOOSE SWAN EMPLOYER SERVICES

Managing a business in today's world can be challenging, and we can help. Swan Employer Services is a Professional Employer Organization (PEO) locally owned and operated in Anchorage, Alaska. Partnering with Swan will help with the management of your human resources, workers' compensation, safety and loss prevention, employee benefits, and payroll in turn, letting you focus on what you do best which is running your business!

By partnering with Swan Employer Services, your Alaska business or non-profit organization and Swan become co-employers. Swan will manage the employee-related administrative needs of your company, while helping to provide a comprehensive set of benefits and services to your employees.

Many times, employers try to use employees in roles they may not have the knowledge or experience in. Laws and regulations are constantly changing, and not keeping current can cost your company time and money.
